

ARTIFICIAL INTELLIGENCE  
ASSOCIATION OF  
LITHUANIA

**PROFILE  
BROCHURE**  
2022

# ABOUT

Established on the 17th of July, 2019, Artificial Intelligence Association of Lithuania (AIAL) is a community dedicated to promoting and encouraging AI integration and development in Lithuania.

**VISION.** The association strives to connect and lead the local AI community to become strong and competitive within Europe and the global context.

**MISSION.** AIAL brings together AI professionals and enthusiasts of Lithuania to debate about AI technology, find the best solutions for AI-related legal issues as well as educate the public on various AI topics. Seeing the potential of an emerging sector of AI, the association welcomes participants from all sectors and supports them to create a better environment to carry out fundamental research, explore and encourage AI startups as well as AI adoption in business. The association pursues sustainable and effective AI integration to all sectors of Lithuania's ecosystem.

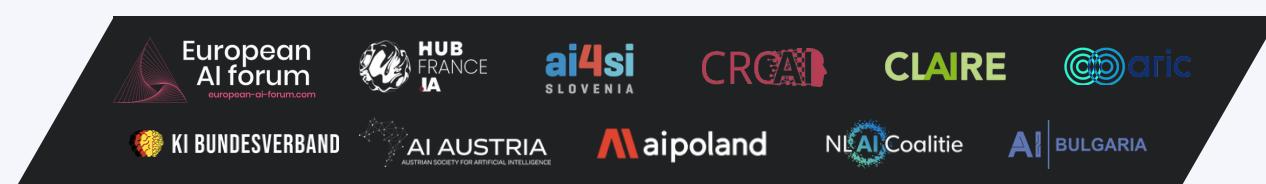

AIAL is a not-for-profit organisation that relies solely on the efforts of the volunteers and support of members or patrons. It is controlled by the president and the board members, elected by AIAL members' public elections.
